About This Content

Mare Nostrum is the newest expansion to Paradox Development Studio's best-selling historical grand strategy game, Europa Universalis IV. You now have even more tools at your disposal as you guide your nation through the early modern world. As its name suggests, Mare Nostrum introduces new systems connected to naval warfare and control of trade. The power of your fleets will depend on the number of sailors your nation can gather, and your ships can now be given missions and areas to patrol. There are also new options for creating trade leagues, and a host of other improvements.

Main Features

Map Sharing

This is a new diplomatic action, where you can ask other nations for their map of a certain region.

Naval Missions

New mission system makes it easier to send your fleets to a region, and expect them to survive.

Barbary Pirates

North African Muslim states can raid the coastlines of their neighbors for gold and sailors.

Trade Leagues

Merchant republics can recruit minor nations into their Trade League for common defense and, more importantly, common riches.

Condottieri

Nations can rent their armies out to fight in other people's wars, earning valuable coin for the realm.

Title: Expansion - Europa Universalis IV: Mare Nostrum

Genre: Simulation, Strategy

Developer:

Paradox Development Studio

Publisher:

Paradox Interactive

Franchise:

Europa Universalis

Release Date: 5 Apr, 2016

b4d347fde0

OS:Vista/Windows 7/Windows 8

Processor:Intel® Pentium® IV 2.4 GHz eller AMD 3500+

Memory:2 GB RAM

Graphics:NVIDIA® GeForce 8800 or ATI Radeon® X1900, 512mb video memory required

DirectX®:9.0c

Hard Drive:2 GB HD space

Sound:Direct X- compatible soundcard

Other Requirements:Broadband Internet connection

Additional:Controller support: 3-button mouse, keyboard and speakers. Internet Connection or LAN for multiplayer

English,German,French

expansion - europa universalis iv mare nostrum

comprei este jogo barato e os gráficos são razoáveis mas a estabilidade deixa muito a desejar, em vinte e dois minutos de jogo crashou duas vezes, exactamente no mesmo lugar, no primeiro mapa. Mesmo que eu goste de dar suporte a equipes de jogos indie, especialmente de países onde quase não existe equipes a fazer jogos, neste dia e idade não tenho paciência para fazer de "bug tester". Eu estava pronto para perdoar a jogabilidade simplista, também a história simplista e a "voice acting" mau, que é mais ou menos na minha opinião, mas o que não posso perdoar é um jogo instável que crasha muito. Infelizmente devido a este facto vou ter de dizer que não recomendo o jogo.

Even tho I bought it cheap and it looks good, its stability leaves something to be desired, in 22 minuts of play crashed two times exactly in the same spot in the first level and even tho I love to support indie teams, specially from countries where game developement is almost non existent, on this day and age I have no patience to be a bug tester anymore. I was ready to forgive the simplistic gameplay, simplistic story and even bad voice acting, if that was the case that is not but I just can't forgive a unstable crash prone game. So unfortunatly i will have to not recomend this game.

Sorry for the bad english not my mother language.. BossConstructor is a game about building and flying your own spaceship from point "A" (start) to "B" (end). There are a number of paths available via nodes, once completed you can travel through the node, you gain components, parts and materials by destroying ships, bosses and structures. You can only construct and refit your ship outside of nodes, so think before you leap as a emp is pointless against a spacestation.

Each attempt will be different.
There will be many attempts.

note

This game is actually built by the Dev listening to players.

> suggest an idea and if worthy your idea will be posted on a voting list.

> Each patch gives players a choice of voting for the next module implemented.

> Get your idea ingame gets your name ingame.. a old classic that is worth a try ,it comes from days gone by so don't expect any of today's fancy add-ons, most will buy it for the nostalgia or to experience what games in the old days were like.

This game will offer a couple of hours of fun with a nice trip down memory lane for others.

Wait til it goes on sale and give it a go.. Another winner from BrainGoodGames. If you haven't played one of theirs before, they use simple rulesets to create enjoyable puzzle games that gradually get more difficult as you repeatedly win. They are basically a mix between Minesweeper-esque solitaire and modern boardgames. In this game you are trying to score enough victory points to win before an endless horde of baddies, with the help of some cards.

The basic game feels very similar to their earlier game, Militia, though based more on Tash-Kalar than Chess.. If you enjoy FMV games DO NOT waste your time and money on #WarGames. The only interaction in this, "game" is like changing the channel on your cable box.

Having played FMV games for 25 years, I can tell you this is the least interactive, "game" in the genre. An overall bland and boring experience.. There might be interesting things in this game, but the interface is pretty♥♥♥♥♥♥♥♥ being a direct mobile port.. I love this game so much. 192 hours on this game and still LOVING it.

So many upsides to this game.

Only one downside I must bring up is that I can't shake

everyone's hand at Two Point Studios and tell them

what an AMAZING job they ALL did on this game.

Please keep up the GREAT WORK! =)

. its not bad but not great. It looks good, puzzles and story is mediocre, but I had some fun playing it 6/10
Recommend this for hardcore p&c fanatics

...terrible interactive design. I even cannot press "exit" on the initial interface with that bloody hand.. A \$10.00 asset on the unity store <https://assetstore.unity.com/packages/templates/cave-exploration-starter-kit-37158> used by a guy who does not know how to programme. Dexion games just likes to rip people from their money since 34 of their games all made within a year are of a similar fraud relating nature.

[Released 20 Sep 2017 which is uncanny because a working version of this game asset called 'No lights' was released a month before this one reached Steam store shelves. This goes to show that Steams Quality Assurance is as fake as CNN News.](#)

[This product doesn't work. The controls of flight are maddening and you will soon find yourself trapped inside a wall within a minute or two forcing you to reboot the game. The 5 achievements set to entice those in the world of \(S.A.D\) Steam Achievement Disorder will be in disarray when they find that none work and can only be unlocked by \(S.A.M\). Literally Dexion Games who hides under a fake company name simply bought the asset, did zero work on it and immediately placed it to be Greenlit.](#)

[The frightening thing is that there are 8 Reviews on the unity store by different people praising the asset because they made a game from it. In other words you can expect another 7 shoddy alternatively named products like this one. all of which will have zero trouble getting past Steams duct tape, Krispy Kreme, Mr Magoo security...](#)

[Warning Review of Dexion Games by someone else...](#)

[If you enjoyed reading this review feel free to subscribe to my curator page. Thanks...](#)

<http://store.steampowered.com/curator/6843548/>

[Just a bit of forewarning. You might want to look at the tutorial before you buy. It's not your "Press X for perfect game" software, and you need to put time and effort into it. I would reccomend this to the following people:](#)

- [1. People who have spare time on their hands.](#)
- [2. People who put effort into what they do.](#)
- [3. People who like RTS games and want to try their hand at their own.. Game keeps crashing. Haven't managed to play it and would not recommend it.. Amazing, a few dissapointments here and there but overall fantastic. Cant wait for the final book of the trilogy. Very funny and very addictive!!!. They say it's a "Choose your own adventure" like game, but that part only comes to the end, the only real challenging part is near the end, and even that is quite easy. Not reccomended for anyone, not even for stress relief.. This is a cute little point and click adventure with some comedy moments and a crime/drama/scifi theme.](#)

[There is no action, just a storyline and some simple puzzles.](#)

[Don't buy it at full price, the game \(each episode\) has less than 2 hours of content. \(It's about 6 to 8 hours to complete all 4 games ~ episodes\)](#)

[If you can get all 4 episodes \(in a bundle\) for under \\$3 on sale, then it's worth it.](#)

[Game is not worth \\$2 per episode and not worth bothering with unless you are going to get all 4 episodes \(they are too short to be worth much alone\)](#)

[Playing through once for the storyline was fun, but there's no real replay value.. I don't recomend buying this separately I recomend just buying the season pass, since there are no new missions in the DLC.](#)
